

# Recycle the “White Stuff”

Help make recycling EPS a success! As a service to you, we offer to recycle your scrap expanded polystyrene (EPS). EPS foam is commonly but incorrectly referred to as Styrofoam™. At ICA, recycled EPS is ground up and manufactured right back into our product. *In order to qualify for this service, the following guidelines must be met:*

- Call our office to arrange a date to bring your recycling to our facility.
- All scrap EPS must be in **CLEAR** poly bags no larger than 72" x 78". All bags must be tied shut with a single knot. **DO NOT** overfill or tape bags closed. Boxed material cannot be accepted.
- ⊘ Wet bags or material **cannot** be accepted. The outside of the bags cannot be dirty.
- ⊘ **Scrap EPS may not be contaminated with any other product** or any other types of foam i.e. pink, gray, green, blue or soft foams. **NO** floor sweepings, used cups, food containers, cigarette butts, tape, labels, glue, dirt, soda cans, corrugated, paper, concrete, garbage, nails, etc. Material **MUST** be **CLEAN!!** Any contamination can result in malfunctioning machinery and possible injury to our operators.
- All bags **MUST** have your name either written on with black magic marker or a label.
- Any material that must be sorted and/or disposed of in a landfill will be invoiced accordingly.

Failure to comply with the above is a safety hazard for employees, risks equipment damage and may cause termination of scrap removal services.

If you have any questions, please feel free to contact ICA customer service.

*eps...*
